Undeniably one of the great trains of the Twentieth Century and the most famous of the Chicago - Los Angeles streamliners, Santa Fe's Super Chief grabbed the public's eye in the 1950s. With the striking "Warbonnet" F units and gleaming stainless-steel cars, this train has been an icon on 3 rails for just as long. No tribute to our anniversary could be complete without one and we've gone the extra mile to make sure this Chief is SUPER!

From the lead F3 to the observation car, this train will bring childhood dreams to life in every way possible! If all you do is watch the train go by, you'll be impressed by the detailed locomotives and cars with their gloss and metallic finish. You'll see the passengers on board - but now you can

also hear their stories! From the engine crew to baggage handlers, conductors to porters, wait staff to car attendants; the full train crew is there to interact with you along the journey. But don't stop there! Climb aboard! Thanks to a Wi-Fi camera in the dome car, you've got the best seat in house. Just like the Santa Fe, we've taken everything to the next level with this set. You'll get sounds from all four F3 locomotives, including a SuperBass B unit. The eight car consist includes a VISION Baggage car with its loading/unloading sequences, newly-tooled 4-4-2 SleeperSounds Pullman with appropriate crew and passenger dialog, StationSounds diner with both station and dining announcements customized for this train, a LoungeSounds Observation complete with the

sounds of travelers enjoying their cross-country experience along with three additional sleeping cars to round out the consist.

All of the passenger cars will feature a simulated stainless-steel finish. Figures are included in all but the baggage car as well! Locomotives will be given a gloss finish to make sure this train captures the full pride of the Santa Fe and Lionel. For those whose love of the rails started with a Lionel F3, for anyone who's wanted to turn back the clock to relive the golden era of streamliners, and for anyone whose pulse beats in time with the rhythm of the rails - your train has arrived.

**FEATURES:**

Set includes:

- ▷ 2 LEGACY F3A Locomotives w/sound
- ▷ 1 Powered LEGACY F3B w/sound
- ▷ 1 SuperBass F3B
- ▷ 18" VISION Baggage Car
- ▷ 21" SleeperSounds Pullman
- ▷ 21" VistaVision™ Dome
- ▷ 21" StationSounds Diner
- ▷ 3 21" Sleeping Cars
- ▷ 21" LoungeSounds Observation

**LOCOMOTIVE FEATURES:**

- ▷ Powered A-B-A
- ▷ Dual motors
- ▷ LEGACY and Bluetooth Control
- ▷ LEGACY RailSounds in all units
- ▷ Track IR in lead F3
- ▷ Fan Driven Smoke
- ▷ LED Lighting
- ▷ Front ElectroCouplers on A units
- ▷ Short clearance non-Operating couplers between units
- ▷ Crew figures included in lead F3

**SUPERBASS F7B FEATURES:**

- ▷ LEGACY and Bluetooth Control
- ▷ Fan Driven Smoke
- ▷ LED Lighting
- ▷ SuperBass RailSounds

**STANDARD 21" PASSENGER CAR FEATURES:**

- ▷ Flicker-free LED lighting
- ▷ Molded plastic interiors
- ▷ Die-cast sprung trucks
- ▷ Kinematic couplers for close coupling
- ▷ Easy conversion to scale couplers
- ▷ Flexible diaphragms
- ▷ Hand painted figures (all cars excluding baggage)

**21" PASSENGER CARS W/SOUNDS FEATURES:**

- ▷ Accessible with LEGACY™ Train Master Control system
- ▷ Custom recordings featuring multiple characters allow you to recreate an entire rail journey - from departure to arrival at your final destination
- ▷ Arrival/departure announcements, dining reservation calls and more in-route dialog
- ▷ "Clickety Clack" sounds in motion
- ▷ Different sound sets in each car

**VISTAVISION DOME FEATURES:**

- ▷ VistaVision™ Wi-Fi video camera streams live video from a dome passenger's vantage point

PULLMAN FEATURES:

- ▷ Flicker-free LED lighting
- ▷ Molded plastic interiors
- ▷ Die-cast sprung trucks
- ▷ Kinematic couplers for close coupling
- ▷ Easy conversion to scale couplers
- ▷ Figures included
- ▷ Length: 21" ea
- ▷ Minimum Curve: O54

Thanks to ongoing production changes and product evolution, not every EMD F unit model looked alike. Take these F3s for example; you'll find a variety of body detail differences between the various roads. In addition, road-specific options like dynamic brakes and steam generators added yet more variety. This year's crop offers some new paint schemes on popular roads from coast to coast. We're also paying tribute to a Lionel original - the New Haven 2242. Locomotives are available as powered AA sets, with both units powered and with smoke and sounds in the lead unit. Additional powered and SuperBass B units are available separately for those who want more power and sound!

#### AA FEATURES:

- ▷ Two Powered A units
- ▷ LED Lighting in both units
- ▷ Fan driven smoke in both units
- ▷ Front ElectroCouplers™ in both units
- ▷ LEGACY RailSounds in lead unit
- ▷ Length 13" ea (26" AA set)
- ▷ Minimum curve: O31

#### POWERED B UNIT FEATURES:

- ▷ LEGACY® and Bluetooth® Control
- ▷ Fan-driven smoke
- ▷ LED Lighting
- ▷ Operating couplers
- ▷ Length: 13" ea
- ▷ Minimum Curve: O31

#### SUPERBASS UNIT FEATURES:

- ▷ LEGACY® and Bluetooth® Control
- ▷ Fan-driven smoke
- ▷ LED Lighting
- ▷ SuperBass RailSounds®
- ▷ Operating couplers
- ▷ Length: 13" ea
- ▷ Minimum Curve: O31

The Northern Pacific upgraded its premier North Coast Limited with new lightweight cars in 1947. In 1954, they added vista dome seating and the popular "Lewis and Clark Traveler's Lounge" cars. Several of the cars were owned by the CB&Q and SP&S, which carried the train over part of the route. These had the owner's initials on the car but still wore the Northern Pacific name and a two-tone green color scheme to match the rest of the consist. With the lengthy route, the Northern Pacific needed five complete consists to provide daily service and the train often grew to more than 10 cars in length, especially during peak travel seasons. With a matched set of F units up front, the North Coast Limited was as handsome a train as the mountain scenery through which it passed. The

seven cars offered here are typical for the train from 1954 through the 1960s. We've had many requests over the years to add it to the Lionel catalog. Your wait is finally over! See your dealer and reserve your seat in northwest splendor today!

**FEATURES:**

2627050 \$1049.99

Considered by some to be a failure due to frequent engine problems shortly after delivery, many railroads quickly learned how to maintain or rebuild the SD50 into a reliable workhorse. The majority of the locomotives built saw service for multiple owners for several decades. Many can still be seen today. They are must-have muscle for any layout set in the 1980s through the present!

Featuring numerous road and even road-number specific details, the Lionel SD50 is coming back in all-new road names! Mars, strobe and ditch lights are included as appropriate for each road. Included in this run are some classics, some second owners and interim paint schemes and even some colorful modern short lines. Which will be hauling freight for you?

**FEATURES:**

Standard LEGACY Diesel features plus:

- ▷ Kinematic pilots
- ▷ Working ditch lights where appropriate
- ▷ Road specific details
- ▷ Length: 19" ea
- ▷ Minimum Curve: O54

EMD's SD38 was a no-frills, blue-collar workhorse designed to dig in and move heavy loads. Most found their way into yard, transfer or heavy-haul service on the larger roads and quite a few have found a home in larger industrial settings as well. Lionel's SD38s come loaded with road-specific details including truck side frames, brake wheel, dynamic brakes, cab and pilot details as well as a variety of lighting options.

America's auto industry moves on rails! Shuttling stampings, frames and other parts from one line to the next, the railroads are an integral part of the assembly line. The Grand Trunk Western is one line whose identity is closely tied to the auto belt's many bustling mills. This set pays tribute to "The Good Track Road" and other Michigan strongholds in this 1980s era consist. A recently acquired SD38 from the DT&I leads this short priority freight of four boxcars, a frame-laden flat and wide vision caboose for another on-time, just-in-time delivery.

**FEATURES:**

- Set includes:
- LEGACY SD38
  - Three 60' Double Door Boxcars
  - 60' Single Door Boxcar
  - 50' Flatcar with Auto frame load
  - Lighted Wide Vision Caboose
- LOCOMOTIVE FEATURES:**
- Standard LEGACY Diesel features plus:
- Road-specific detailing
  - Kinematic pilots
  - Easy conversion to scale couplers (not included)

**ROLLING STOCK FEATURES**

- Die-cast trucks and Operating couplers

  - Auto frame load on Flatcar
  - Die-cast Flatcar frame
  - Wood Flatcar deck
  - LED interior and marker lights on Caboose
  - Detailed Caboose interior with figure
- Length: 160"
  - Minimum Curve: O31 Rolling Stock, O54 Locomotive

ROAD-SPECIFIC DETAILS

**NEW! DETROIT ASSEMBLY SET**  
2622030 \$1399.99

Most commonly associated with the auto industry, these 60' boxcars hauled components like hoods, fenders and other stampings on specialized racks for efficient loading and unloading between component mills and final assembly lines. Common from the late 1960s to the early 2000s, these cars commonly operated in pools and wandered far from their home rails.

**FEATURES:**

- Die-cast trucks
- Operating couplers
- Opening side doors
- Separately applied detail parts
- High or low hand brake and running boards as appropriate for road name.
- Length: 16 1/2"
- Minimum Curve: O31

Railroads introduced many bold new colors and graphics on the sides of their 60' and larger boxcars in the 1960s and 70s. What if they had used these rolling billboards to bring back some classic schemes from the past? Based on the popular "LCL" fleets of the 1940s and 50s, these big boxes show off your favorite liveries in a big new way.

**FEATURES:**

- ▷ Die-cast trucks
- ▷ Operating couplers
- ▷ Opening side doors
- ▷ Separately applied detail parts

**LIGHTED**

Looking for some colorful cabins? We've got you covered! By the 1970s, many railroads had given up on "caboose red" and used the iconic cars as rolling billboards for their brand, safety, or other promotions. Changes of ownership, such as the Reading cars which went to the D&H, only added to the variety. Models feature LED lighting and complete interiors with figures.

**FEATURES:**

- ▷ LED Interior illumination and flashing rear end light
- ▷ Detailed interior with figure
- ▷ Die-cast trucks with rotating bearing caps
- ▷ Operating couplers with hidden tabs
- ▷ Easy conversion to scale wheels or couplers (not included)
- ▷ Separately applied details
- ▷ Length: 10 1/4"
- ▷ Minimum Curve: O31

PRODUCT

# 250 AMERICA

Proudly leading the charge, the CSX Spirit of America Dash-8 locomotive was originally commissioned as the lead unit of the 1992 George HW Bush Presidential campaign. After serving it's presidential duty, it was renumbered to #7812 and continued it's life hauling freight across the CSX system. It's bold paint scheme and patriotic name remain a symbol of American pride on the rails. This freight set comes complete with patriotic themed rolling stock honoring our rich history of freight on the rails.

## FEATURES:

Set includes:

- ▷ CSX "Spirit of America" Dash 8 Locomotive #7812
- ▷ US Autorack
- ▷ Tank Car
- ▷ Hi-Cube Boxcar

# 250 AMERICA

Celebrate America's 250th with a newly tooled classic, the iconic 4-4-0 returns to the Lionel lineup in our separate sale LionChief Bluetooth locomotive line. Headlining the release is the patriotic George Washington locomotive honoring a founding father. To accompany this engine, we continue to honor the founding fathers with three passenger coaches. Get a head start on collecting all our America 250 items as we continue the celebration into 2026.
